

LOCAL OUTCOME REPORT FORSYTH COUNTY, NC

PROSPERITY NOW SCORECARD

The *Prosperity Now Scorecard* equips advocates, policymakers, practitioners and others with data on how residents in states, counties and cities are faring when it comes to their financial health and whether opportunities to prosper are equitable. These data jump-start a conversation about solutions and policies to put all households on stronger financial footing.

Financial Assets & Income

FORSYTH COUNTY, NC

OUTCOMES BY RACE & ETHNICITY

Racial economic inequality limits a household's ability to achieve prosperity, and it is important to explore the impact that race and ethnicity have on outcomes. See the table below for the available data by race and ethnicity on key Scorecard outcomes in your community. The acknowledgement of disparities between populations and their origins make our data clearer and our policy and programmatic solutions stronger.

Financial Assets & Income

OUTCOME MEASURE	WHITE	BLACK	NATIVE	ASIAN	NH/PI**	OTHER	MULTI-RACIAL	HISPANIC LATINX

ABOUT PROSPERITY NOW

PROSPERITY
NOW

Prosperity Now (formerly CFED) believes that everyone deserves a chance to prosper. Since 1979, we have helped make it possible for millions of people, especially people of color and those of limited incomes, to achieve financial security, stability and, ultimately, prosperity. We offer a unique combination of scalable practical solutions, in-depth research and proven policy solutions, all aimed at building wealth for those who need it most.

Notes on the Data

Missing Data

- Data that is unavailable for certain populations is either represented by a '-' or an 'n/a'.

Margins of Error

- Margins of error are included where available. See the Methodology section for more detail.

Limitations of Scorecard Data by Race & Ethnicity

- Where possible, the Scorecard disaggregates measures for racial and ethnic groups within communities, but as our sources are primarily national surveys, there are limitations to the data we publish. For each population, we use the data for people identifying only as that racial or ethnic group and have a minimum threshold for the number of observations available to produce an estimate. The result is significant amount of missing data for populations of color, particularly outside of states and the largest local areas. In addition, we use aggregate definitions of populations (e.g., "Asian," "Latino") which group people with ancestry from a variety of countries and varying backgrounds, concealing diversity and economic disparity within groups.
- The Scorecard data offer a starting place for understanding financial health in your community, but you may want to dig deeper. More detailed data may exist in state or local data sources not included in the Scorecard, or you may want to collection information directly from community members.

Outcome Measure: Affordability of Homes

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Asset Poverty Rate

- White=White alone and non-Hispanic/Latinx; Black=Black or African American alone and non-Hispanic/Latinx; Native=American Indian or Alaska Native alone and non-Hispanic/Latinx; Asian=Asian alone and non-Hispanic/Latinx; Other=Other race(s) and non-Hispanic/Latinx; Hispanic/Latinx=Hispanic or Latinx and any race. Note that categories are mutually exclusive so each household will only fall into one of these categories.
- These measures are estimates with no real margins of error. Placeholders have been added as a reminder that caution should be used when making comparisons between areas or subgroups.

Outcome Measure: Early Childhood Education Enrollment

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Four-Year College Degree

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: High School Graduation Rate

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Homeownership Rate

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Households with Zero Net Worth

- White=White alone and non-Hispanic/Latinx; Black=Black or African American alone and non-Hispanic/Latinx; Native=American Indian or Alaska Native alone and non-Hispanic/Latinx; Asian=Asian alone and non-Hispanic/Latinx; Other=Other race(s) and non-Hispanic/Latinx; Hispanic/Latinx=Hispanic or Latinx and any race. Note that categories are mutually exclusive so each household will only fall into one of these categories.
- These measures are estimates with no real margins of error. Placeholders have been added as a reminder that caution should be used when making comparisons between areas or subgroups.

Outcome Measure: Income Inequality

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Income Poverty Rate

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Liquid Asset Poverty Rate

- White=White alone and non-Hispanic/Latinx; Black=Black or African American alone and non-Hispanic/Latinx; Native=American Indian or Alaska Native alone and non-Hispanic/Latinx; Asian=Asian alone and non-Hispanic/Latinx; Other=Other race(s) and non-Hispanic/Latinx; Hispanic/Latinx=Hispanic or Latinx and any race. Note that categories are mutually exclusive so each household will only fall into one of these categories.
- These measures are estimates with no real margins of error. Placeholders have been added as a reminder that caution should be used when making comparisons between areas or subgroups.

Outcome Measure: Median Household Income

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Unbanked

- White=White alone and non-Hispanic/Latinx; Black=Black or African American alone and non-Hispanic/Latinx; Native=American Indian or Alaska Native alone and non-Hispanic/Latinx; Asian=Asian alone and non-Hispanic/Latinx; Other=Other race(s) and non-Hispanic/Latinx; Hispanic/Latinx=Hispanic or Latinx and any race. Note that categories are mutually exclusive so each household will only fall into one of these categories.
- These measures are estimates with no real margins of error. Placeholders have been added as a reminder that caution should be used when making comparisons between areas or subgroups.

Outcome Measure: Underbanked

- White=White alone and non-Hispanic/Latinx; Black=Black or African American alone and non-Hispanic/Latinx; Native=American Indian or Alaska Native alone and non-Hispanic/Latinx; Asian=Asian alone and non-Hispanic/Latinx; Other=Other race(s) and non-Hispanic/Latinx; Hispanic/Latinx=Hispanic or Latinx and any race. Note that categories are mutually exclusive so each household will only fall into one of these categories.
- These measures are estimates with no real margins of error. Placeholders have been added as a reminder that caution should be used when making comparisons between areas or subgroups.

Outcome Measure: Unemployment Rate

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.

Outcome Measure: Uninsured Rate

- White=White alone and any ethnicity; Black=Black or African American alone and any ethnicity; Native=American Indian or Alaska Native alone and any ethnicity; Asian=Asian alone and any ethnicity; NH/PI=Native Hawaiian or Other Pacific Islander alone and any ethnicity; Other=Other single race and any ethnicity; Multiracial=Two or more races and any ethnicity; Hispanic/Latinx=Hispanic or Latinx and any race. Note that a single individual, family, or household may fall under multiple categories (i.e., be counted in multiple columns) since the race and ethnicity subgroups are not mutually exclusive.
- Race and ethnicity categories for families and households are defined by the race and ethnicity of the primary householder. For example, families counted in the Black column have a primary householder who is Black or African American alone and of any ethnicity. Similarly, families counted in the Hispanic/Latinx column have a primary householder who is Hispanic or Latinx and of any race.
